

CORBELLEIGHT IS A DARK SECRET

Ex-Champion Having Hard Time to Remove Flesh Taken On in New York.

CHASE LED PACIFIC BATTING

New York First-baseman Improved Hitting By Swinging Left-handed.

(Special to The Times-Dispatch.) LOS ANGELES, Jan. 4.—Young Corbett's daily grind to decrease his weight and get to the figure prescribed when he enters the ring to meet Aurelio Hernandez, is progressing with painful monotony to the ex-champion, but he sticks at it with a persistency worthy of a better cause. Eight good miles of road work in the morning and several fast rounds of boxing, together with a lot of shadow work and bag punching keep Corbett out of mischief.

Dr. sports are being kept busy figuring Corbett's weight, but nothing but business has been announced thus far. The Denverite seems to wish to conceal his real weight from the public and his reasons for doing so are not at all clear. He has taken off pounds of fat since he came to Los Angeles, and states that he will have no trouble in making the required figure.

Now that the Green-Solomon fight is out of the way, the coming contest between Hernandez and Corbett on the 12th of this month is the sole topic along the Hills. Betting has not commenced yet, but when it does it promises to be more brisk than on any event which has been held off here in months. The Eastern contingent which is in town now have seen Young Corbett in action, and pin their faith on an ex-champion who came back and recaptured his old-time form.

To offset the Eastern money the local public now bet will favor Hernandez. The Hakefield champion has appeared here before, and the impression he has made on the public was favorable enough to cause them to play him to win over his opponent next week.

Chase Hard Hitter.

Hal Chase, the clever first baseman of the New York Americans, who is playing ball in the Pacific Coast League, was easily the best done in that league, which just recently closed. Chase, who is a native of New York, played a fine game, and his batting average was .350. He was a hard hitter, and his power was well known to all who saw him play.

Chase has a fine record in the Pacific Coast League, and his batting average was .350. He was a hard hitter, and his power was well known to all who saw him play.

THE STANDARD TRUST COMPANY

L. F. HARRIS, President. H. SHEFFIELD, Jr., Vice-President. F. E. WHITEHEAD, Sec'y and Treasurer.

Proposes to Lend Money to Purchase Homes at 5 Per ct. Simple Interest

The Loan Can Be Paid Monthly Until the Debt is Extinguished, or Cancelled at Option of Borrower at Any Time.

Don't You Want to Own Your Own Home?

A Home purchased on the Standard Trust Company Plan will pay for itself in a reasonable time and put money in your pocket. If this is true, it would pay you to make a loan, as we believe everybody would be willing to invest \$72.00 where it is possible to obtain a \$1,000 piece of property. The rental of a \$1,000 house in Richmond to-day is based on a net return of 10 per cent. a year to the landlord, to which he adds taxes, insurance and repairs. Money borrowed in ordinary ways in Virginia costs 7 per cent. a year, and if invested in a home, the householder must pay taxes, insurance and repairs. Here is an illustration of a loan of \$1,000 made by the Standard Trust Company plan: When the contract is six months old, \$72 has been paid in dues. If you are a contract holder, and desire a loan to invest in a home, by taking \$1,000 in cash, you can invest in a home that will easily rent for \$12.50. You are required to pay the Standard Trust Company on the principal each month only \$7.50. If you pay \$7.50 per month, twelve months' payment will equal \$90; in ten years and six months \$946, and the advance credit of \$54, which you had acquired before the loan was made, will make a Thousand Dollars. The home is paid for. Now, you have paid out of your own pocket only the \$72 which you had paid before the loan was made. Let's see how much you have been saving? If you are collecting \$12.50, and have only been paying out \$7.50, you have saved \$5.00 every month, which in ten years and six months amounts to \$630.00. How much interest would you have to pay for the use of the loan for ten years and six months? An average interest of \$25.87 per year; for the full term of loan, \$271.65; subtract that amount from the amount that you saved, and you still have a surplus of \$358.35, which is clear gain. You own the Thousand Dollar Home; the amount of your investment is only \$72. You own a \$1,000.00 piece of property and have a surplus of \$358.35.

If you do not own your property, and are paying rent on a \$1,000 home for ten years and six months, at \$12.50 a month, you would pay in rent \$1,575, a total loss, with only rent receipts to show for that amount. File your application at once; what you make by carrying it is what you would lose by neglecting it—\$2,933.35. After you have paid in \$72 in dues, and do not care for a loan, you can accept a paid-up certificate bearing interest at the rate of 5 per cent. per annum, payable semi-annually. The contract also provides for cash surrender. For particulars and plans call on or address

Dr. J. L. LEHR, State Manager, Offices 710-711 American National Bank Building, Richmond, Va. Representatives Wanted in Every Town.

Dr. Trent Speaks. After a brief introduction the speaker gave sample definitions of history and showed how faulty they were, but concluded that history and literature were terms thoroughly understood, even though they could be in regard to their exact function in history. Dr. Trent said that the history of the world is a story of the human mind, and that the history of the world is a story of the human mind, and that the history of the world is a story of the human mind.
